

# HUNGRY VALLEY

State Vehicular Recreation Area General Plan Update + EIR

## Project Description

California State Parks is conducting a public process to update the General Plan for Hungry Valley State Vehicular Recreation Area (SVRA). The General Plan Update will provide a comprehensive management plan that will guide the future of Hungry Valley SVRA for the next 20 to 30 years. The General Plan is important to the future of Hungry Valley SVRA and California State Parks wants to hear from you!

## About the Project

A lot has changed in and around Hungry Valley SVRA since the last General Plan was prepared in 1981. California State Parks is updating the Hungry Valley SVRA General Plan to address changing conditions, analyze the latest information and data, and incorporate lands that have been added to Hungry Valley SVRA since the existing General Plan was adopted in 1981.

In 2015, California State Parks purchased 845 acres to add to Hungry Valley SVRA. These lands abut the northern boundary of Hungry Valley SVRA and can be seen from the Condor Mesa overlook. The area is referred to as the Condor Mesa area. In total, Hungry Valley SVRA includes approximately 19,625 acres.

The updated General Plan will provide a comprehensive management plan for Hungry Valley SVRA. A General Plan serves as a blueprint for future decisions about land use, facilities, recreation opportunities, and management of natural, cultural, and physical resources, among other topics, and is required by the California Public Resources Code (PRC §5002.2).

## Location

Hungry Valley SVRA is located in Los Angeles, Kern, and Ventura Counties near the communities of Gorman and Lebec adjacent to Interstate 5 at Tejon Pass. Lands of the Los Padres National Forest are to the west and the Angeles National Forest is to the south and east. The Department of Water Resources manages land to the east.

## Environmental Review

The General Plan will be subject to a comprehensive environmental review pursuant to California Environmental Quality Act (CEQA) guidelines included in PRC §21000. To meet CEQA requirements, an Environmental Impact Report (EIR) will be prepared to analyze potential significant impacts and consider alternatives, potential measures that may mitigate or reduce impacts for the General Plan Update.

## Step-by-Step: Hungry Valley SVRA General Plan + EIR

- 1 Project Start-Up & Public Participation ☆
- 2 Draft Guiding Statements ☆
- 3 Existing Conditions
- 4 Draft Planning Concepts ☆
- 5 Preferred Planning Concept ☆
- 6 Preliminary General Plan + Draft EIR ☆
- 7 Draft General Plan + Final EIR ☆
- 8 Final General Plan + Certified EIR ☆

- Completed Step in Planning Process
- Current Step in Planning Process
- Future Step in Planning Process
- ☆ Opportunities to Get Involved

## Your involvement and input is important!

Public involvement and input is important and will play a significant role in the process of updating the Hungry Valley SVRA General Plan. There are 3 ways to stay involved and share your thoughts and ideas about the Hungry Valley SVRA General Plan Update + EIR:

- 1 Visit [www.PlanHungryValley.com](http://www.PlanHungryValley.com)**  
Learn more about the General Plan Update + EIR. California State Parks will also accept comments online during opportunities for public involvement.
- 2 Stay Up-to-Date through Email**  
Emails will be sent to stakeholders that request to receive news and updates. Emails will be sent to announce public meetings, provide notice when there are opportunities to comment, and share documents that are available for review.
- 3 Attend a Meeting**  
Meetings will be held throughout the General Plan Update process to get input from stakeholders and the public, and share information about the General Plan Update and EIR.
